EXAMINER'S AMENDMENT

The application has been amended as follows:

In the specification, on the first page, before the first line the following has been inserted, -- This application is the national stage of parent application PCT/US98/11069 which has an international filing date of June 1, 1998 --.

In claim 5, line 1, the term "line" has been deleted and replaced with -- liner --.

2. The following is an examiner's statement of reasons for allowance: the closest prior art is Griebing 5,004,635. The instant claims are patentable over Griebing because Griebing does not disclose or suggest a liner having a first portion and a second portion wherein the first portion has a length less than the second portion and the second portion has a propensity for sticking to unvulcanized elastomer greater than the first portion, in combination with all of the other limitations of claim 1. Concerning the previous rejections set forth in the Final Rejection of 11/29/05, the instant claims are

patentable over the art cited therein because of the reasons set forth in applicants' arguments on page 5, paragraph D, of the response filed on 1/20/06.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
